1. If the Project involves a Ground Disturbing Activity, the Applicant agrees to monitor the condition of soils and wildlife in the Project Area each year in order to determine whether the soil conservation standard adopted pursuant to Public Resource Code (PRC), Section 5090.35 and the HMP prepared pursuant to Section 5090.53(a) are being met.
  2. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the soil conservation standard adopted pursuant to PRC Section 5090.35 is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion, to repair and prevent accelerated erosion, until the same soil conservation standard adopted pursuant to PRC Section 5090.35 is met.

#### B. Programmatic Conditions

##### B. The Applicant must describe the following programmatic conditions:

1. Identify the potential for the facility to reduce illegal and unauthorized OHV Recreation activities in the surrounding areas:  
  
Funding will provide an increased level of enforcement dealing with identified problem areas that would not otherwise be accomplished and increases the number of patrol officers and time that will be devoted to this activity. It provides specialized training in OHV enforcement that will improve the professionalism of our patrols and provides maintenance and replacement of regulatory signing and maps for the public reducing potential violations and adverse impacts. Funds will be used to provide increased resource protection and public safety through signing, and installation and maintenance of barriers.  
  
Improved program management will reduce conflicts and adverse impacts between motorized and non-motorized activities. Funds will be used to patrol and monitor wilderness trailheads and lands adjacent to wilderness boundaries and non-motorized trails within the general Forest to minimize potential illegal use of these trails and areas.
2. Describe how the Applicant is meeting the operations and maintenance needs of any existing OHV Recreation Facility under its jurisdiction:

The STF meets its OHV operation and maintenance needs through a combination of Forest Service allocated funding, California State OHV grants, Resource Advisory Committee (RAC) grant funds and the use of volunteers. Funding through these sources assists in providing for routine patrols, signing, education, and routine infrastructure maintenance and repair.

**C. Fee Collection**

Describe how fees collected pursuant to Section 38230 of the Vehicle Code (in-lieu funds) are utilized and whether the fees complement the Applicant's proposed Project:
